Doctoral Supervision Agreement

**PREAMBLE**

The doctoral candidate and his or her dissertation supervisors agree to the following terms in order to guarantee transparency with regard to the content and timeframe of the supervision relationship. The supervisor acts in this connection within the scope of his or her official duties for the University of Freiburg.

The agreement follows the currently feasible planning horizon and may be amended and updated by written mutual consent with regard to the research question to be dealt with in the dissertation project as well as the individual qualification elements.

Decisions on the acceptance of doctoral candidates are made by the responsible doctoral committee. The procedure for earning a doctoral degree is regulated by the applicable doctoral degree regulations. The supervision agreement does not serve as a substitute for either acceptance as a doctoral candidate or student registration or matriculation. Employment contracts remain unaffected by the supervision agreement.

**Planned completion of dissertation** (month/year) \_\_\_\_\_

The dissertation project should be suitable for completion within a reasonable period of time.

## 3. Individual Study Program

The doctoral candidate and the supervisors agree to a set of required qualification measures (e.g., field-specific courses, transdisciplinary qualification courses or workshops, stays abroad, participation in conferences, talks, etc.), which are also described in an appendix to this agreement.

## 4. Work Schedule and Timetable

The doctoral candidate and the supervisors agree to a work schedule and timetable adapted to the dissertation project and the life situation of the doctoral candidate. The work schedule and timetable includes regular advising sessions and progress reports. It is described in an appendix to this agreement.

## 5. Integration in Research Training Group

The dissertation project will be completed within the Research Training Group (RTG) 2202 "Transport across and into membranes". In addition to the regular advising sessions, the doctoral candidate agrees to hold a presentation on the state of the project within the context of the RTG at least once a year and receives feedback on the state of the dissertation project and possibilities for improving it. Any terms agreed to within the context of the doctoral research program remain unaffected.

## 6. Obligation to Observe the Rules of Good Academic Practice

The doctoral candidate and the supervisor or supervisors agree to respect and observe the principles of good academic practice as described in the recommendations of the German Research Foundation and in the Regulations of the University of Freiburg on Safeguarding Academic Integrity.

## 7. Grading Timeframe

The grading timeframe is set when the doctoral candidate submits the dissertation. It must be in line with the applicable doctoral degree regulations.

## 8. Disputes

In the event of differences of opinion or disputes between one or more of the supervisors and the doctoral candidate, all parties agree to make an effort to find an amicable solution. If necessary, they may contact the Central Ombuds Office or one of the faculty ombuds offices for dissertation supervisors and doctoral candidates of the University of Freiburg.

### 9. Termination of the Supervision Agreement

The parties may dissolve the doctoral supervision agreement by mutual consent.

A unilateral termination of the supervision agreement must be submitted in written form. The doctoral committee should be notified that the supervision agreement has been terminated.

The supervision agreement is dissolved if the application for acceptance as a doctoral candidate is rejected by the faculty.

The supervision agreement is terminated when the doctoral candidate fulfills the obligation of publishing the dissertation.

### 10. Severability Clause

Should a provision of this supervision agreement be or become void or unenforceable, whether in part or in its entirety, the validity of the other regulations included in this supervision agreement remain unaffected. In place of the void or unenforceable provision, a new provision that comes closest to reflecting the spirit and purpose of the supervision agreement should be considered as agreed upon. The same applies in the case that a loophole is found in the supervision agreement.

### 11. Execution, Central Registration, and Acceptance as a Doctoral Candidate

The parties to the agreement sign **at least three copies** of the supervision agreement. The doctoral candidate and his or her dissertation supervisor or supervisors receive one copy each, and one copy is filed with the records of the doctoral committee responsible for the doctoral degree procedure.

The **central registration** of the doctoral candidate is completed upon conclusion of the supervision agreement.

The **application for acceptance as a doctoral candidate** should be submitted to the responsible doctoral committee within six weeks after the conclusion of the supervision agreement.
